EDUCATION

VIT Bhopal University — B.Tech, Computer Science & Engineering | Expected Nov 2026 | CGPA: 7.5/10
New Horizon Public School, Navi Mumbai | Class XII: 75% | Class X: 92%

EXPERIENCE

Software Engineering Intern | Rajadi Global Pvt. Ltd. Mar 2026 – Present

- Collaborate directly with the founder in a startup environment to develop production-grade software solutions.
- Co-develop AppSecure, a microservices-based application security platform inspired by Veracode and SonarQube using Go, Python, and TypeScript.
- Contribute across API gateway, job orchestration, scanner, parser, reporting, and frontend services by implementing features, fixing defects, and improving platform reliability.
- Support security scanning workflows covering SAST, Software Composition Analysis (SCA), secrets detection, and unified vulnerability reporting.
- Managed Android build generation, release preparation, and cross-platform testing for MeriJameen, ensuring stable web and mobile releases.

AI/ML Automation Intern | Jio Platforms Limited Oct 2024 – Dec 2024

- Built an intelligent PDF interaction system using Python, LangChain, and ChromaDB.
- Developed RAG pipelines achieving ~90% retrieval precision and 85–90% response accuracy.
- Engineered a log analysis pipeline reducing diagnostic time by 30% while maintaining ~30-second average response time.

PROJECTS

VioLens — Real-Time Violence Detection System

- Evaluated a 3D-CNN model achieving 89.5% accuracy, 91% recall, and 89.6% F1-score.
- Built an evaluation lab supporting batch inference, confusion matrices, and performance metrics.
- Co-authored an IEEE-format research paper documenting methodology and results.

Doctor's Aid — AI Healthcare Assistant

- Led a 10-member cross-functional team.
- Integrated ML models for diabetes and heart disease prediction with 88%+ accuracy.
- Coordinated backend integration, testing, and technical documentation.

TECHNICAL SKILLS

Languages: Go, Python, TypeScript, JavaScript, SQL, HTML, CSS
AI/ML: PyTorch, Scikit-learn, LangChain, Ollama, LLM's, ChromaDB, Retrieval-Augmented Generation (RAG), Prompt Engineering
Software Engineering: Microservices, REST APIs, Git, Docker
Databases: MongoDB, SQL, Vector Databases
Tools: Docker, Git, Jupyter Notebook, Google Colab

CERTIFICATIONS

- Machine Learning A–Z: AI, Python & R + ChatGPT
- The Bits and Bytes of Computer Networking – Google
- The Complete Python Bootcamp
